Why Chiropractic? People go to Chiropractors for a variety of reasons. Some go for symptomatic relief of pain or discomfort (**relief care**). Others are interested in having the cause of the problem as well as the symptoms corrected and relieved (**corrective care**). Still others want whatever is malfunctioning in their bodies brought to the highest state of health possible with Chiropractic Care (**preventative care**). These are the three types of care. As your doctor will weigh your needs and desires when recommending your schedule of care, please check the type of care desired so that we may be guided by your wishes whenever possible.

- Relief Care
- Corrective Care
- Preventative Care
- Check here is you want the doctor to select the type of care appropriate for your conditions.

I confirm that the information I have provided in regards to my current condition and past health history are true to the best of my knowledge.
